

PROFILE

A passionate programmer since my freshman year of college, I honed my skills from hobbyist in C# to a full-stack developer with 3 happy clients under my belt. I'm a constant learner, eager to tackle new challenges and bring your ideas to life through innovative web and mobile applications.

SOFTWARE DEVELOPER / PROGRAMMER

EDUCATION

Visayas State University

2021 - present

[It's okay to brag about your GPA, awards, and honors. Feel free to summarize your coursework too.]

EXPERTISE

Frontend Development:

- HTML
- CSS
- JavaScript
- Flutter

Backend Development:

- PHP
- Java
- Python
- Assembly
- C#
- C++
- C
- Dart
- Godot

Database Management:

- MySQL
- Firestore
- Hive
- Google Drive (note: primarily for storage solutions, not a traditional database)

TECHNICAL SKILLS

- Proficient in front-end technologies: HTML, CSS, JavaScript, and Flutter.
- Strong backend development skills: PHP, Java, Python, Assembly, C#, C++, C, Dart, and Godot.
- Experienced with database management systems: MySQL, Firestore, and Hive.
- Familiar with using Google Drive for storage and collaborative projects.
